

## FRIENDSHIP BRACELET

There are many types of friendship bracelets. Try your hand at making this diagonal one. For a fun slant on friendship bracelets, personalize this one using threads of your BFF's favorite colors.

### MATERIALS:

• Several colors of 6-strand embroidery thread

• Tape or safety pin

• Scissors

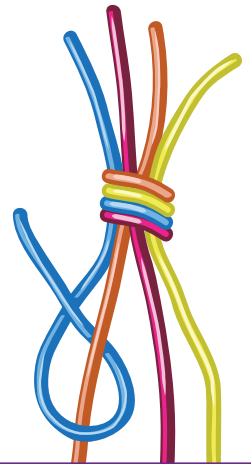

1.

Pick 4 different colors of 25" 6-strand thread. Tie them in a knot about 3" from one end. Tape or safety-pin the 3" end to a stable surface, like a table.

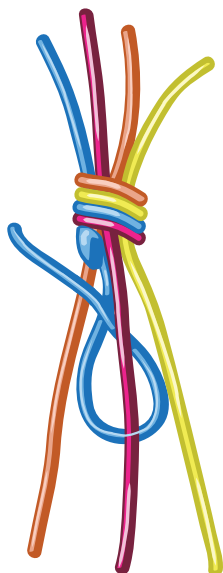

2.

Take the strand on the far left and cross it over and under the strand next to it, making a knot and pulling it tight. (It's important to hold the second strand still!) Repeat so you have two knots.

3.

Take your first strand and make a double knot over your third strand, then your fourth. Now that first strand is on the far right. Start the whole thing over again with the strand that's now on the left. Repeat until your bracelet is 5 inches long.

4.

Tie it off with another knot.

You can use as many colors as you want. Our example has eight strands.
