

NOSAUR FEET

Ever wish that you could roam with the dinosaurs? Try out your Jurassic stomp with these fun-filled cardboard dinosaur feet and be the ruler of playtime.

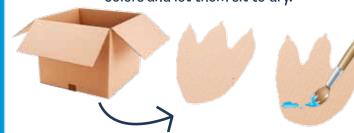

YOU'LL NEED:

Thick cardboard pieces (an old box is ideal), scissors, colored paints and ribbon

Cut out two large dinosaur feet from your cardboard.

Cut two pieces of ribbon large enough to loop around your feet.

Thread them through the holes in the cardboard and tie a knot underneath each cardboard foot so that your own feet fit inside the loops.

Thread two bigger ribbon loops long enough to reach your waist and knot them both underneath the cardboard feet as well.

The word dinosaur comes from the Greek language and means "terrible lizard", which refers to their impressively large size rather than their scary appearance.

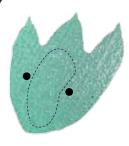

For more fun, visit www.smartlabtoys.com www.facebook.com/smartlabtoys

Slip your feet into the smaller loops while holding the longer loops at your waist for better control.
